DAY 2 - 24 OCT

Poster Discussion

SESSION I International Collaboration for
Sustainable Society

SESSION II Innovations in Climate Technologies

DAY 3 - 25 OCT

SPECIAL SESSION GRI-IERI Research Project

SESSION III Environmental Impacts

SESSION IV Net Zero Transition

Closing Remarks

■ Session Description

International Collaboration for Sustainable Society

Collaboration involves examining international demands for assistance in climate adaptation and mitigation, along with a deep exploration of sustainable strategies to tackle environmental and social challenges. This collaborative effort aims to find effective solutions that promote long-term environmental and social well-being.

Innovations in Climate Technologies

Introducing cutting-edge advancements designed to address climate-related challenges involves presenting the latest climate technologies and discussing sustainable utilization strategies for each.

Environmental Impacts

Investigates the environmental impacts and ecological damage resulting from the climate crisis, as well as its future trends.

Net Zero Transition

Involves sharing comprehensive strategies at national and regional levels to combat climate change, aiming for a net-zero world where emissions are balanced through reduction and removal efforts.
