Dr. Bum-joon Min (Department of Biomedical Science and Engineering) is appointed as an assistant professor of clinical practice at Bundang Seoul National University Hospital

- GIST (President Seung Hyeon Moon) – Dr. Bum-joon Min received a Ph.D. from the Department of Biomedical Science and Engineering and was recently appointed as an assistant professor of mental health care at Seoul National University Hospital Bundang Hospital.
- Dr. Bum-joon Min graduated from Seoul National University College of Medicine where he completed his undergraduate and postgraduate studies. He developed an interest in brain imaging and brain waves while treating patients with mental illnesses and received a Ph.D. in the Bio-Medical Signal & System Analysis lab under Professor Boreom Lee in February, 2017, for a paper on the analysis of brain activity patterns associated with language processing.
- After earning his doctorate, Dr. Min worked as a clinical lecturer in the Department of Mental Health at Seoul National University Hospital, and he was appointed as an assistant professor at Seoul

National University Hospital in October 2018 after receiving recognition for his experience at GIST.

- Dr. Min said, "My GIST experience was very useful because various bio-signal research, including EEG, can acquire and utilize data for the general public, so that it can be applied to various health care fields and public health fields. In the future, I will do my best in research activities for the improvement of people's mental health as well as the training of the students in the medical field."
