GIST College hosts 2018 G-SURF poster session

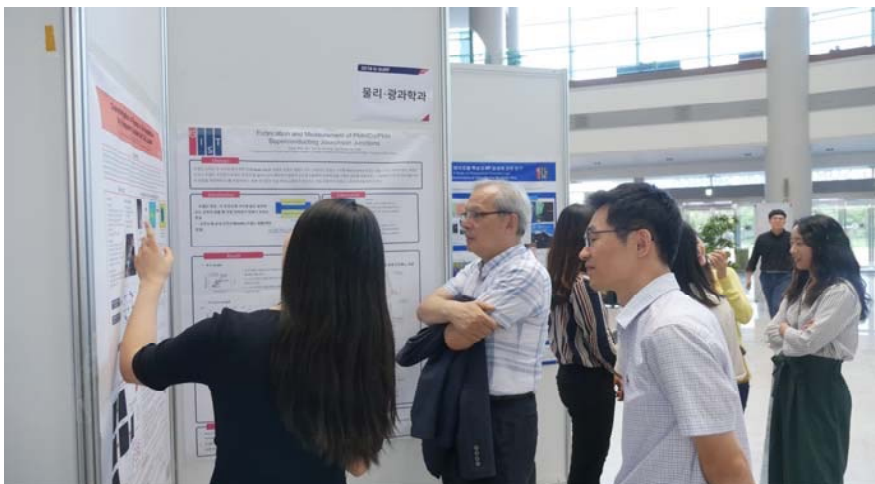

- GIST (President Seung Hyeon Moon) – GIST College Dean Do-Kyeong Ko hosted the "2018 G-SURF Poster Session" on September 3, 2018, at Oryong Hall.
 - G-SURF, which has been held every summer since 2011, is a research program that was modeled after the Caltech Summer Undergraduate Research Fellowship, and it is very popular with students.
- GIST College students who participate in G-SURF gain essential laboratory experiences by applying their scientific knowledge to real-world research while receiving mentorship during their summer vacation.
 - This year, 62 students participated in G-SURF with 42 graduate school professors, and the results of their research were presented at the poster session.
 - College student Mirim Park who is a junior in the School of Materials Science and Engineering participated in the Nano Electronic & Energy Materials Laboratory of Professor Moon-Ho

Ham said, "Working with professor in the lab, I could see what kind of work the researchers were doing and what qualities they needed. G-SURF gave me an opportunity to meet a new mentor and helped me think about our future direction of technology."

- G-SURF will select the best reports submitted by the students to have them published in the Korean Journal of Undergraduate Research, which is published by GIST College.
