

GIST Open Tuesday receives Gwangju Nam-gu delegation... discussion of regional development plans

On December 15 during GIST's Open Tuesday, Nam-gu District Mayor Byung-nae Kim, 6.16 Gwangju Joint Committee Chair Jung-gil Kim, Hanshin University President Sang-kyu Park, Gwangju YMCA President Han-ho Ryu, Nam-gu Association of Gwangju Chair Chan-kwon Chung, Nam-gu Living Culture Center Director Jin-ha Bae, and people living in Nam-gu, Gwangju, including Nam-gu Democratic Party's Dongnam-gap Regional Committee Senior Vice Chair Joon-yeon Lee visited GIST.

We wanted to visit GIST, the cradle of science and technology, but it was difficult to do so this past year due to difficulties caused by COVID-19; however, we adhered to the social distancing rules but remained in contact with President Kiseon Kim, discussing the active role of GIST for regional development and agreeing to promote joint cooperation.

In particular, Nam-gu District Mayor Byung-nae Kim with high expectations for the future has decided to seek cooperation projects with GIST, such as working together on the Nam-gu Energy Industrial Complex and Electricity Research Institute.

An Open GIST means that we will continue to work with GIST in prompting cooperation with the local community.
