GIST (Gwangju Institute of Science and Technology, Acting President Raekil Park) Technology Management Academy (GT MBA) held the launching ceremony of the 13th Alumni Association.

The event was attended by Acting President Raekil Park and executives of the Techno Management Business Academy Alumni Association, as well as Chairman Kyung-Sup Shim (CEO of Intops Technic Co., Ltd.) and was held on the 13th (Tuesday) at GIST Oryong Hall with about 50 members of the 13th Alumni Association attending.

In his inaugural address, Alumni Chairman Kyung-Sup Shim said, "The 13th Alumni Association will do its best not to damage the reputation of the GIST Technology Management Academy, a luxury brand with well-organized educational programs, great instructors, and the best alumni. Through industry-academia cooperation, we will strive to contribute to the win-win development of the local community and increase the value of the Technology Management Academy."

In a congratulatory speech, Acting President Raekil Park said, "We ask for your interest and encouragement so that the Techno Management Business Academy can make a new leap forward based on your knowledge and experience accumulated in each field. We will be with GIST and the development of the Technology Management Academy in the future."

Jeongsoon Park, Executive Vice President of the Alumni Association, said, "On behalf of the alumni, I sincerely congratulate the launch of the 13th Alumni Association. We will work together so that the Techno Management Business Academy can be reborn as the best organization in the local community and that alumni companies can become the center of regional economic development."

The GIST Techno Management Business Academy provides systematic training courses by experts from various fields to corporate CEOs and executives and employees of public institutions to enhance their understanding of global trends and provide opportunities for technology transfer and industry-university cooperation.

In particular, since 2017, an agreement has been signed with the National University of Singapore to operate the 'CEO Leadership Program' and grant certificates to members who complete the course to support them in strengthening their capacity to establish global management strategies.

Since its opening in 2010, a total of 480 alumni have been produced, and they are making great contributions to society as leaders in various fields such as politics and relations as well as the business world. Classes at the Techno Management Business Academy are held every Tuesday at 7:00 PM.
