The Gwangju Institute of Science and Technology (GIST, President Kichul Lim) and Techno Management Business Academy (GT MBA, Director Jae Gwan Kim) held its 14th entrance ceremony on Tuesday, March 5.

The event was held at Oryong Hall with the attendance of 51 GT MBA students and key officials including President Kichul Lim, Vice President for External Affairs Yonghwa Chung, Alumni Association President Yun-seop Kim, and GT MBA Director Jae Gwan Kim.

Meanwhile, a development fund donation ceremony was also held on this day by Gyeong-seop Shim, CEO of Intop Technology Co., Ltd., president of the 13th alumni association. The 10 million won donated by CEO Shim will be used for cooperation and mutual development with the region.

Established in 2004, Intop Technic Co., Ltd. is a company specializing in manufacturing primary and secondary battery production facilities and factory automation equipment. Based on its lithium primary battery manufacturing line manufacturing technology, it is recognized for its excellent quality in the cylindrical rotary equipment field and is achieving remarkable growth every year.

CEO Gyeong-seop Shim said, "With the hope for regional and national economic development, I decided to donate a development fund with the hope that GIST will go beyond the remarkable development and success it has achieved so far and stand tall as a world-class educational institution. I am confident that if GT MBA alumni

practice sharing and giving as a central force in the local community, we will grow together with GIST."

President Kichul Lim said in his welcoming speech that day, "This year we expect to provide a venue for the exchange of the latest industrial technology knowledge information and a wide range of human networks for successful management activities in the digital transition business environment by organizing the nation's highest-level instructors and curriculum."

He also said, "GTMBA alumni will be able to create groundbreaking growth momentum through GIST's unique programs and cooperation between local, industrial, and academia, such as new start-ups, technology transfer, patents, and research institute establishment."

GIST Academy, now in its 14th year since opening the Top Technology Management Course in 2010, serves as a hub for industry-academia cooperation and business through systematic CEO education programs. Approximately 530 alumni produced to date are active as global leaders in various fields of society.

In particular, for the balanced development of local industries, an additional program in the eastern region (Yeosu, Suncheon, Gwangyang) will be opened in September and classes will be held in Suncheon City on topics such as the latest science and technology and global management issues.
