The GIST Main Gate, renovated earlier this month, has established itself as a new landmark for GIST, a symbolic space connecting the region and the world.

A preference survey was conducted on the three winning designs from the Main Gate Design Competition held late last year, and the final design, "GIST-POST," was selected and completed as the main gate sculpture.

"GIST-POST" consists of four pillars, each representing intellect, scholarship, passion, and youth. The main gate sculpture, made of metal, reflects the sky and surrounding landscape with its unique reflective effect, symbolizing GIST's ever-changing and growing identity. Furthermore, the columns of varying heights and circular openings symbolize communication and the light of truth.

Vice President for Public Affairs Yonghwa Chung said, "The 'GIST Main Gate, Find My Name' event is a meaningful process that breathes life into the newly constructed main gate. As a research-oriented university that has grown alongside the local community for the past 30 years, I hope this event will serve as an opportunity to share GIST's spirit and vision with the public."

Meanwhile, the GIST Main Gate Completion Ceremony is scheduled for Friday, November 14. For inquiries about the event, please contact the GIST Development Fund Team at 062-715-5023.
