

2nd GIST-ICL International Workshop on Plastic Electronics

Date&Time Dec. 6 (Tue), 2016 14:00 **Venue** APRI Hall

Time	Schedule	Session
14:00 ~ 14:05 (05')	Opening Remarks	Prof. Kwanghee Lee (GIST)
Session 1		
14:05 ~ 14:35 (30')	Charge carrier dynamics in organic and perovskite solar cells	Prof. James Durrant (Imperial College London)
14:35 ~ 14:55 (20')	Polypyrrole multilayer-laminated cellulose for large-scale repetitive removal of toxic heavy metal ions	Prof. Sukwon Hong (GIST)
14:55 ~ 15:20 (25')	Metrology for organic and hybrid photovoltaic materials	Prof. Ji-Seon Kim (Imperial College London)
15:20 ~ 15:45 (25')	Research partnership between the Stony Brook University and Brookhaven National Laboratory	Prof. Taejin Kim (Stony Brook University)
15:45 ~ 16:05 (20')	Coffee Break	
Session 2		
16:05 ~ 16:30 (25')	Post-polymerisation modification of conjugated polymers	Prof. Martin Heeney (Imperial College London)
16:30 ~ 16:55 (25')	Structure, composition and interfacial properties of hybrid optoelectronic devices	Prof. Martyn McLachlan (Imperial College London)
16:55 ~ 17:15 (20')	Solution-processed metal oxide materials for hydrogen energy devices	Prof. Myung-Han Yoon (GIST)
17:15 ~ 17:20 (05')	Closing Remarks	Prof. Kwanghee Lee (GIST)
