Professor Jae-Suk Lee appointed to the editorial advisory board of the international journal *Macromolecules*

□ Gwangju Institute of Science and Technology (GIST, President Kiseon Kim) School of Materials Science and Engineering Professor Jae-Suk Lee was appointed as to the editorial advisory board of *Macromolecules*, and American chemistry journal, in recognition of his contributions to the study of high molecular synthesis and polymerization.

- *Macromolecules* is the world's most prestigious journal in the field of polymers published by the American Chemical Society and has an impact factor (IF) of 5.997.

□ Professor Jae-Suk Lee has made many contributions over 30 years to the field of polymer synthesis, especially in polymer synthesis, and has published 241 papers and applied for 285 patents. He has also contributed to international research and development through nine books and hundreds of lectures.

- Professor Lee has been a professor at the GIST School of Materials Science and Engineering since 1994 and was appointed as special professor in 2015. In 2016, he was appointed as a full member of the Korean Academy of Science and Technology and was selected a fellow of the Polymer Society of Korea in 2019.
