GIST holds signing ceremony for the Innopolis Campus Promotion Project

- GIST (President Kiseon Kim) Technology Institute Business Support Center held a signing ceremony on October 8, 2019, with 23 (preliminary) start-up companies selected for the 2019 GIST Innopolis Campus Development Project for 'Supporting MVP Production' and 'Program for Product Improvement.'
- 2019 GIST Innopolis Campus Development Project aims to spread entrepreneurialism within the university by utilizing the innovation resources of the R&D Special District Promotion Foundation and by promoting university start-up education with actual start-ups and jobs. It is a project that induces entrepreneurial spirit by connecting prospective entrepreneur candidates, identifying entrepreneurship items, and provides follow-up support after establishment by providing technology and resources.
- Sixteen teams for 'Supporting MVP Production' selected through courses such as Start · Jump Course, Deep Education I & II, Academy of Product Improvement, IR Contest, etc. for the 2019 GIST Innopolis Campus Development Project, and seven teams for 'Program for Product Improvement' for follow-up growth support, will receive 5 to 20 million won for support.
- GIST Business Incubator Director Seong-geun Ki said, "It is hoped that the GIST Innopolis Campus Fostering Project will serve as a foundation for Gwangju and Jeonnam to create global companies."
